To Whom It May Concern:

I am happy to recommend Tobin DeVille as an extraordinary trainer. Over several years, he has led training courses for our patrons and our staff. Always, with outstanding reviews. He has held courses on Tablets and e-readers, Computer basics Internet, Excel, Word, Windows, and Computer security, to name a few. Tobin is very knowledgeable, and has the personality to convey this knowledge to the students taking the classes. He is friendly and caring, with a very positive attitude. He nurtures the students. He works well with all students, from the least knowledgeable and afraid, to those with some experience. He has led many classes for us, and not one word of criticism from my staff or a student. A common comment from students attending his classes is "I learned so much", "He made it seem easy", "When is he coming back?", "The class was great!"

You simply won't find a better teacher anywhere. He is easy to work with. He wants to provide the best classes possible for your students and to meet and exceed their needs.

Thank you.

Sincerely,

Howard L. Coy Jr.,
Director
