To Whom It May Concern:

I didn't think I'd have room enough on the Evaluation Form we are given after each of our classes, so I will attach this instead. This represents my thoughts for all of the classes I have had an opportunity to be in with him!

Tobin has been the best instructor that I have had over the years of training. He is very professional and knowledgeable of all the Microsoft Office 360 courses. Tobin always displayed a supportive attitude and was very patient with each of us in class.

Besides being such a great instructor, he made it a fun and exciting learning experience! I couldn't wait to get to class to see what the music selection for the day was and/or what he had planned to get everyone engaged! He allowed the class to bond and to interact in a very friendly atmosphere.

I hope my path crosses with him again with any new learning opportunities provided!

Sincerely,

Sue Doughty
