To whom it may concern,

Please take this letter as a recommendation for the skill training available through Tobin DeVille, with DeVille Training Connection.

I discovered the benefits of using DeVille Training Connection while I was making a major change to my law practice. After buying a new law office equipment, a new management program, and upgrading to Microsoft 365, I realized my staff and I needed training in Microsoft Word to get full benefit from those changes. After describing my needs to Tobin, he was able to create two training sessions to improve our mastery of Microsoft Word so we could complete the transition to our new kind of practice.

Tobin came to my office and set up a mobile computer lab in my conference room. He provided separate workstations for me and my two employees and used the separate workstations to teach us the Microsoft Word skills we needed. My conference room is equipped with a large screen for Zoom conferences and my staff and I have tried self-education with a variety of webinars. My personal experience is that sitting and watching someone demonstrate something on a screen is not nearly as effective as the on-site, hands-on instruction provided by DeVille Training Connection.

Tobin is flexible, knowledgeable, and prepared. I feel that the money I spent on training with DeVille Training Connection was a worthwhile investment and not an expense.

Sincerely,
